WHY FAST TRACK?

Many organizations are under pressure to quickly implement a certifiable ISMS in accordance with ISO 27001 — due to customer demands, legal requirements, or risk reduction. Our FastTrack solution is designed to meet this need: fast, efficient, and with minimal resource requirements.

YOUR BENEFITS – IN SHORT

- **Time savings:** Faster path to certification maturity — ideal for procurement processes or urgent customer demands.
- **Efficiency:** Reduced workload through automated processes.
- **Increased trust:** Demonstrable information security strengthens your market position.
- **Transparency & sustainability:** Security report with actionable recommendations.
- **Planning certainty:** Fast Track at a fixed price.

RESULTS

- Certification-ready ISMS in accordance with ISO 27001
- Increased trust from customers and partners
- Clear action recommendations for sustainable information security
